**Annual Report**

**2016 - 2017**

## **General Introduction**

Parivaar is a humanitarian service organization, based in 24 Parganas (S), West Bengal, and at present is chiefly working for total care and overall development of children from categories like orphans, girl children highly vulnerable to exploitation, victimization, and trafficking, street children, abandoned children, extremely impoverished children from tribal areas and other such highly vulnerable children at Parivaar Ashram, Village - Barkalikapur, P.O. Bakhrahat, District 24 Parganas (South), West Bengal.

Starting from scratch and thereafter developed brick by brick, Parivaar is being continuously developed and moulded into a unique institution transforming the lives of each of its residential members (children and adults) and acting as a training ground of highly dedicated life-committed grassroots workers. As on 1st April '17 there are 1529 resident children (986 boys and 543 girls) at Parivaar, making it the largest and high-quality residential program for children from impoverished strata in West Bengal.

Children are admitted at a young age of 4 to 10 into Parivaar. Each resident child once admitted into Parivaar is under the care and custody of Parivaar till higher education (graduation/post-graduation) and subsequent job placement and settlement into the future phase of life. Parivaar is behind each child and pave his/her way into any future career which he/she is aspiring for and showing promise of making to, whether it is a stream graduation in humanities, commerce or sciences, or a professional degree education. For example, children showing aptitude for meritorious professional lines like engineering or medicine or any other such lines is trained and fully supported (just as parents do for their own children) till completion of that higher education and subsequent placement. Our earliest set of children have been gainfully employed in many different career paths like nursing, accountancy, hospitality and many other skills and professional lines.

Parivaar also acts as a hub for multifarious service activities for scores of the villages in the vicinity. At the Parivaar Ashram campus is also located Parivaar's own Formal School 'Amar Bharat Vidyapeeth' in which the resident children of Parivaar study.

## **Our Ethos and Inspirations**

Parivaar's mission is inspired by the clarion call of 'Service of Divine in Man' in a reverential spiritual attitude, in a spirit of worship given by Sri Ramakrishna and Swami Vivekananda.

## **Vision**

Parivaar's vision is to change the lives of destitute and vulnerable children in a loving and caring environment, and through the benefits of long-term education creating the soil on which children can realize their full potential.

## **Our Beginning**

Parivaar was started by Vinayak Lohani (an alumnus of IIT Kharagpur and IIM Calcutta), who, inspired by spiritual and humanistic ideals of Sri Ramakrishna and Swami Vivekananda, decided to devote his entire life for serving 'Divine in Man' as taught by Swami Vivekananda. Vinayak Lohani gave up the prospect of highly lucrative corporate career by not taking any placement from IIM. Immediately after passing out of IIM in 2003, with just 3 children in a small rented building with almost no financial resources, Vinayak started Parivaar. Till the level of 15 children at Parivaar, he used to take some lectures for students appearing for Management entrance examinations and through that could meet the expenses. Gradually people began to be inspired by this dedicated service and started to support the initiative and the number of children at Parivaar grew. At the end of 2004, Parivaar could purchase its own land to develop its permanent campus. Parivaar's mission and

theme began to attract dedicated youth, many of whom joined Parivaar as resident workers and began to become bearers of this mission.

### **About the Founder**

Vinayak Lohani, the Founder of Parivaar ([www.parivaar.org](http://www.parivaar.org)), did B.Tech from Indian Institute of Technology Kharagpur (2000) and MBA from Indian Institute of Management Calcutta (2003). He did not appear for the placement process at IIM, and immediately after his MBA, started Parivaar. The normal career-path of a mainstream corporate career following degrees from two of the most prestigious institutes in India ensures a highly lucrative future, but Vinayak Lohani sacrificed this to start Parivaar.

He was inspired by the spiritual and humanistic ideals of Swami Vivekananda, and with just 3 children in a small rented building with almost no financial resources, Vinayak started Parivaar. As on 1st April '15 Parivaar's Residential Institution has 1529 resident children (986 boys and 543 girls) and is considered to be a model institution for caretaking and overall development of children from destitute backgrounds in a residential setting. It is also the largest free residential institution for children from impoverished backgrounds in whole of West Bengal.

Vinayak Lohani is a member of several committees of Government of India, and serves on Board of many civil society organisations.

### **Background and Admission Process into Parivaar**

#### **How Do Children Come to Parivaar?**

Generally, children admitted into Parivaar are orphans, street kids, children with critically-ill parents and no other family support, and children from other vulnerable backgrounds, including single-parent households, kids from areas where exploitation and victimization, especially of girls, is common, and kids from highly impoverished rural and tribal areas where starvation and malnutrition are rampant, and where daily income per family is less than 1\$. All these children — though from diverse backgrounds — have the common characteristic that their destinies can be changed with access to clean and safe living and through education. If these children are nurtured in a residential setting where their basic needs are met, they can focus on the new future possible to them with structured learning leading to university-level education.

Parivaar helps children achieve the goals they set for themselves. We support them in choosing a career for which they have interest and aptitude, and help them pursue a degree to make that career a reality. Some of our earliest residents have now moved into careers in engineering, nursing, and accountancy, just to name a few.

Parivaar receives approximately 2000 cases of vulnerable children a year by field organizations, relatives of the child in question, or through concerned non-family members. After filtering Prima Facie information, cases for site visits and detailed investigations are short-listed. Parivaar has a special team that conducts site inquiries from where the case-request has come. This team visits the child's location and collects a detailed profile, facts and information on him based on the interaction with his referring persons/entity and other possible sources. This site report is then discussed and deliberated, and the severity of the need of the child to be admitted to Parivaar is assessed and a decision is made. The important parameters looked into while admitting into Parivaar are:

1. Parivaar accepts kids between 4 and 10 years of age, though certain exceptions are made.
2. The child should want and be able to stay at Parivaar through university enrollment. Just as in any family, we believe children should be supported by their family – in this case Parivaar – until they are self-sufficient.
3. Generally, along with one child all his/her siblings are also admitted into Parivaar. We believe it does not make sense to develop a bright future for one and leave others to languish behind. Parivaar's principle is that all siblings should progress together so that their familial bonding remains intact into the future.

### **Children profile at Parivaar:**

1. As on 1<sup>st</sup> April 2017, there are in all 1529 resident children at Parivaar (986 boys and 543 girls).
2. Out of them 1113 are from highly impoverished tribal pockets from districts of Bankura, Purlia, Midnapore (W), Birbhum West Bengal and Singhbhum, Saraikela, Ranchi and Giridih in Jharkhand.
3. From non-tribal areas i.e. 416 children, the children have either lost both the parents or have only mother who is in very difficult circumstances of deprivation. These are children of high vulnerability prone to exploitation, child labor, vulnerability of being used by anti-social elements, child labor, conditions of homelessness etc.

## **Health, Diet, Hygiene and Medical System**

### **A Brief Outline**

The diet at Parivaar has been scientifically planned and set by specialist dieticians, making the diet very healthy and balanced. Same meals are partaken by all the members (children and Seva-vratees) at the same venue and at the same hours. The water consumed by all the inmates is purified water as there are water-purifiers in each residential block.

Parivaar has a team of six medical personnel (Medical supervisor and nurses) living at Parivaar, thus ensuring 24-hour medical care to everyone. Their task is to administer routine drugs like those for cold, cough, skin infections, cuts/bruises, stomach ailments etc, do preliminary treatment while keeping the sick under observation during fever, illness. We have doctors visiting twice a week and inspect the children who face complaints during that period. We maintain a detailed medical history for each resident child. Parivaar Ambulances are stationed 24 hour at both Parivaar Boys' Residential Campus as well as Parivaar Sarada Teertha Girls' Residential Campus, and is used to meet any exigencies.

### **Detailed Medical Documentation for each child**

Each child at Parivaar has a separate medical file in which all periodic inspections by the doctors are documented in a standard template and maintained in that child's file. All prescriptions, hospitalization documents, ailment histories, allergies/susceptibilities are also documented and appended in this file. Thus, a continuous health and medical history of each is being continuously developed and recorded. As a result, any new doctor can be consulted and just by going through the respective Health File he gets the exact snapshot of the health status and health history of the child.

### **Initiatives in Tribal Areas**

#### **Parivaar's initiatives in Tribal Areas and admission of children from highly impoverished tribal areas – A Brief Outline of the Outreach**

Parivaar being the hub of training of Seva-vratees, is also the base for many other projects serving the rural areas in 24 Parganas district as well as far-off tribal areas in districts of Midnapore (West), Bankura, Purulia, Birbhum in West Bengal and Singhbhum (East) in Jharkhand. These areas are home to some of the most impoverished tribes of the country. The whole population suffers from

malnutrition and generation after generation. People in this belt live a life totally unlit by the lamp of education and in thoroughly sub-human conditions.

Through rigorous field-work Parivaar has developed its field-network over more than 100 such villages in tribal areas, with a contact person from the local community in each of these villages. We have been able to develop this network through Jana-Sabhas (community meetings), engaging with the community, and winning their trust and confidence. The guardians/relatives of the children already admitted into Parivaar from these areas act as field volunteers, and help in expanding the outreach, due-diligence during admissions of more children, and maintaining continuous relationship with these areas.

Two main tribes, Sabar and Birhore, are the main beneficiaries of Parivaar's tribal service programs.

### **Memories from the Past**

#### **Excerpts from a Parivaar Newsletter from May 2004**

##### **The First Day in School**

Parivaar has now 45 children, 30 of our Parivaar children are going to St. Elizabeth School located on the busy Diamond Harbour Road, at a distance of about Four Kilometers from our home, Parivaar Centre Bonogram. It was a challenge to work out admissions of our children as they did not have any exposure to prior schooling at all. The School arranged the admission tests and it was decided that whosoever would pass the test, shall be admitted to the class he/she was appropriate for.

16th of March was a big day of Parivaar. The batch of thirty students appeared for admission test on this day. The preparations started on the night before. The answer sheets were to be readied and pencils sharpened. The clothes to wear were to be kept tidy. We all woke up early, and after all had taken their breakfast the children were taken to the school. It was a short test and we were delighted to know all the children were successful and had gained admissions into the school. A few got admissions to Class 4, others to Classes 3, 2 and 1. The children of Parivaar finally joined a reputed formal school and were now "school-going students". The fees and all other necessary papers were

submitted. A tailor was appointed and he came to take measurement amidst much excitement among the children. The school began its new academic sessions on the 5th of May.

On 5th of May the children at Parivaar were all up in the wee hours of the morning. They just could not wait for the School Bus (a private bus Parivaar had engaged for the purpose of school transportation) to take them to their first day in school. The school hours are from 6.30 to 10.30 AM. The children woke up at 5.00 AM and readied themselves for a new life. The children were looking very smart in their new uniform and their faces beamed with great pride and joy.

Just before they were to board the bus to their long and arduous journey of life, Vinayak led them to prayer, and gave a talk making them realize the importance of that day in their lives. The children were visibly overwhelmed, and one by one touched Vinayak's feet and sought his blessings. This was an extremely emotional and momentous occasion in the life of Parivaar. We offered silent prayers to the Almighty that the first step had been taken with hope of changing destinies of these children, and that having walked the first step He may bestow upon us strength so that the subsequent steps become easier to take. The mission of Parivaar of changing destinies had begun and there is no turning back now.

The words of Vivekananda rang true to our ears, "it is not the work of a day and the path is full of the most deadly thorns, Come then, look in the face brethren, it is a grand task and we are so low. But we are sons of light and children of God. Glory unto the Lord, we will succeed. Hundreds will fall in the struggle and hundreds will be ready to take up the task. You know the disease, you know the remedy, only have faith, sympathy – fiery faith, fiery sympathy, Glory unto the Lord, march on, the Lord is our General. Do not look back to see who falls – forward, onward ! Thus and thus we shall go on, brethren, One falls, and another takes up the work".
