General Introduction

Parivaar is a humanitarian organization inspired by the spiritual and humanistic ideals of Sri Ramakrishna and Swami Vivekananda, with its chief institutions based in West Bengal, India, and a recent second branch in Madhya Pradesh. For last 18 years, Parivaar has worked towards the total care and overall development of children who are highly vulnerable to exploitation, victimization and trafficking, including orphans, street children, abandoned children, and extremely impoverished children from tribal areas. It also conducts many more humanitarian activities for the destitute and uncared, including elderly and shelterless.

In Bengal Parivaar has two residential educational institutions – Parivaar Vivekananda Sevashrama for Boys and Parivaar Sarada Teertha for girls. With over 2000 resident children, these are West Bengal’s largest free residential institutions for children from deprived and destitute backgrounds. We provide residential living, education, and physical activity in a loving and caring atmosphere for boys and girls from early age of 5 till their higher education (university level graduation or employability programs).

Parivaar’s Residential Institutions are seen as a model institution in the field of caretaking and overall development of vulnerable children. We have been the recipient of the 2011 National Award for Child Welfare from the President of India, the highest recognition by the Government of India.

In the year 2016 Parivaar began to expand to a new geography of Madhya Pradesh purchasing 17 acres of land at village Sandalpur in District Dewas along with a plot of land on banks of Narmada at village Navada. From 2017 onwards it has started 621 Day Boarding (Meal cum Education centres) for children in selected impoverished tribal and rural pockets called ‘SriRamakrishna Vivekananda Seva Kutir’ in Dewas, Sehore, Mandla, Sheopur, Chhindwara, Khandwa, Vidisha, Dindori, Anuppur, Betul, Sidhi, Ratlam, Harda and Shivpuri districts. At these Kutirs more than 55,000 children are getting nutritious meals (breakfast and dinner) along with strong Supplementary education and Life-Skills over morning and evening shifts. Also, a residential educational institution, modeled on lines of our Bengal institutions, has started at Sandalpur village in Dewas district in December 2021 with more than 300 resident children initially, and will be gradually scaled up to a capacity of more than 2000 resident children. Another residential institution is coming up in Sehore district. Parivaar has also started 2 hostels in Mandla for more than 200 children (both girls and boys). Eventually one residential educational institution in each of the districts of MP where Seva Kutirs are under operation, will be set up.

In the year 2021, several ancillary initiatives based on the Seva Kutir platform have also been started. These are:

(a) 24/7 Ambulance Services
(b) Vision Restoration Programme
(c) Mobile Health Clinics
(d) Mother - Infant Care (Prenatal to First 1000 days) Programme
In 2003, a 25 year old young alumnus of IIT Kharagpur and IIM Calcutta, having opted out of placements towards a lucrative corporate career, was driven by the inspiring exhortation of Swami Vivekananda of selfless service to those in suffering and make one's life one with them. This young man, Vinayak Lohani, thus inspired by spiritual and humanistic ideals of Ramakrishna-Vivekananda, resolved to devote his entire life for serving 'Divine in Man' as taught by Swami Vivekananda. He gave up the prospect of highly lucrative corporate career by not taking any placement from IIM. Immediately after passing out of IIM in 2003, with just 3 children in a small rented building on outskirts of Kolkata, he started Parivaar.

But he had no resources. So in order to kickstart his mission, till the level of 15 children at Parivaar, he used to take some lectures for students appearing for Management entrance examinations and through that could meet the expenses of the set-up. Gradually people began to be inspired by this dedicated service and started to support the initiative and the number of children at Parivaar grew. At the end of 2004, Parivaar could purchase its own land to develop its permanent campus. Parivaar’s mission and theme began to attract dedicated youth, many of whom joined Parivaar as resident workers and began to become bearers of this mission.

In 2016, after 14 years of relentless service in Bengal and with many youth inspired to join him, Vinayak Lohani, in 2016, expanded Parivaar’s footprints into Madhya Pradesh.

Mission & Vision

Our mission is to bring about transformation in lives of suffering humanity through earnest humanitarian work, and in particular change the lives of destitute and vulnerable children and youth in a loving and caring environment, creating the soil on which children can realize their full potential, and through the benefits of long-term education, livelihood training, and hand-holding.

Our vision is to reach as many children and youth as possible throughout India and help transform their lives.
The Founder

Vinayak Lohani, the Founder of Parivaar, did B.Tech from Indian Institute of Technology Kharagpur (2000) and MBA from Indian Institute of Management Calcutta (2003). He did not appear for the placement process at IIM, and immediately after his MBA, started Parivaar. The normal career path of a mainstream corporate career following degrees from two of the most prestigious institutes in India ensures a highly lucrative future, but Vinayak Lohani sacrificed this to work at the grassroots level.

He was inspired by the spiritual and humanistic ideals of Swami Vivekananda, and with just 3 children in a small rented building with almost no financial resources, Vinayak started Parivaar. As on December 2021, Parivaar’s Residential Institution has more than 2000 resident children and is considered to be a model institution for caretaking and overall development of children from destitute backgrounds in a residential setting. It is also the largest free residential institution for children from impoverished backgrounds in whole of West Bengal. It also conducts many welfare programs in West Bengal.

In the year 2016 Parivaar began to expand to a new geography of Madhya Pradesh purchasing 17 acres of land at village Sandalpur in District Dewas along with a plot of land on banks of Narmada at village Navada. From 2017 onwards it has started 621 Day Boarding (Meal cum Education centres) for children in selected impoverished tribal and rural pockets called ‘Sri Ramakrishna Vivekananda Seva Kutir’ in Dewas, Sehore, Mandla, Sheopur, Chhindwara, Khandwa, Vidisha, Dindori, Anuppur, Betul, Siddhi, Ratlam, Harda and Shivpuri districts. At these Kutirs more than 55,000 children are getting nutritious meals (breakfast and dinner) along with strong Supplementary education and Life-Skills over morning and evening shifts. Several other service initiatives are also going on like 24/7 Ambulance services; Vision Restoration Programme; Mobile Health Clinics etc.
Awards and Honours

- National Award for Child Welfare 2011 presented by the Hon. President of India at the Rashtrapati Bhavan.
- Sanskriti Award 2011, country's premier award for young achievers in 2011 from the Former President of India Dr APJ Abdul Kalam.
- CNN-IBN's 'Young Indian Leader of the Year Award' for 2012.
- 'Swami Rama Humanitarian Award 2015' presented by Hon. Chief Minister of Uttarakhand.
- Nivedita Samman 2019 presented by West Bengal Governor Shri Jagdeep Dhankar.
- IIM Calcutta's 'Distinguished Alumnus Award' (one of the 9 recipients selected out of 8000 alumni of the institute in last 50 years) awarded in 2011 on occasion of Institute's Golden Jubilee.
- IIT Kharagpur's 'Distinguished Alumnus Award' awarded in 2014 - Youngest recipient in the history of the award.
- Sri Sathya Sai Award for Human Excellence 2018 presented by the Honourable Vice President of India.
- Swami Ranganathananda Memorial Humanitarian Award 2014 presented at the Ramakrishna Mission Institute of Culture Calcutta.
- Bhoora Deoras Sewa Samman' 2015 presented at Lucknow by Hon Governor, Uttar Pradesh.
- Telegraph 'Special Honour' conferred by Telegraph Education Foundation Calcutta in 2014.
- 'True Legends Award' presented by 'The Telegraph' in association with '100 Pipers' in April 2015.
- 'Spirit of Mastek Award' conferred by IT Company Mastek Corporation
- 'KarmaveerPuraskar' 2011 presented by International Confederation of NGOs
- 'Transforming India through Transforming Indians' felicitation from Chinmaya Mission Kolkata
- Rotary Club of Calcutta Megacity Vocational Excellence Award 2012.
- Rotary Club of Calcutta Metropolitan Vocational Excellence Award 2014.
Roles with Government of India

- Induction into Central Advisory Board of Education (CABE) (2015 onwards), the apex consultational forum in Ministry of Human Resources Development, Government of India.

- Inducted into the Management Committee and Governing Board of Childline India Foundation (2014 onwards), constituted by the Ministry of Women and Child Development which manages 24 hour child helpline services across nearly 500 districts in India.

- Inducted as a Member of Bharat Rural Livelihood Foundation (BRLF) (2015 onwards), set up by the Ministry of Rural Development, Government of India, as a funding and capacity-building institution towards accelerating sustainable action in the domain of rural livelihoods.

- Member, Advisory Board, Kendriya Vidyalaya Sangathan (KVS) which runs more than 1000 KV Schools in India.

Governing Body

Parivaar is registered in India as the PARIVAAR EDUCATION SOCIETY. Vinayak Lohan is the Founder, Secretary and Chief of Parivaar. The Governing Body is as follows:

Mr Sumit Bose  
President  
Former Finance Secretary, Government of India

Ms Sreedevi Memon  
Management professional

Mr Deepak Ahuja  
Senior Technology Professional, Amazon

Mr Ramesh Kacholia  
An eminent philanthropist and convener of Caring Friends Network

Mr Shyamsundar Agarwal  
Industrialist based in Kolkata

Prof Sougata Ray  
Professor and member Board of Directors at IIM Calcutta

Mr Pranjal Dubey  
IT entrepreneur and founder Sant Singaji Institute of Science & Management

Mr Saurabh Mittal  
Entrepreneur

Mr. Kapil Bharadwaj  
Chief of Operations, Parivaar

Mr. Siddharth Parmar  
Chief Executive Officer, Parivaar

Mr. Shekhar Patidar  
State Coordinator, Parivaar MP

Mr. Raju Ram  
State Coordinator, Parivaar Bengal
Advisory Board

Parivaar is fortunate to have committed long-time supporters who also serve on our Advisory Board which advises the Founder and the Governing Body in a range of matters. The members of the Advisory Board are as follows:

Mr Nilesh Shah
MD, Kotak Asset Management

Mr Aniruddha Dutta
Former Head of Research, CLSA

Mr Rajesh Raman
Finance Professional, Singapore

Mr K. K. Jhunjhunwala
Senior Chartered Accountant

Mr Shyam Maheshwari
Founder, SSG Advisors, Singapore

Mr Atul Satija
Founder & CEO, The Nudge Foundation & CEO, Give India

Mr Akash Mohapatra
Legal Co-head (Asia), Deutsche Bank, Singapore

Mr. Manav Yagnik
Entrepreneur

Ms. Shobha Punukollu
Philanthropist

Parivaar – Central Functionaries

Siddharth Parmar
Chief Executive Officer

Kapil Bharadwaj
Chief Operations Executive
Parivaar Bengal
Children profile at Parivaar Bengal

- As on 31st December 2021, there are more than 2000 resident children at Parivaar's Residential Institutions.
- Out of all resident children, nearly 1500 are from highly impoverished tribal pockets from districts of Bankura, Purulia, Midnapore (W), Birbhum in West Bengal and Singhbhum, Saraikela, Ranchi and Giridih in Jharkhand.
- From non-tribal areas i.e. more than 500 children, the children have either lost both the parents or have only mother who is in very difficult circumstances of deprivation. These are children of high vulnerability prone to exploitation, child labor, vulnerability of being used by anti-social elements, conditions of homelessness etc.
Background and Admission Process into Parivaar

How Do Children Come to Parivaar?

Generally, children admitted into Parivaar are orphans, street kids, children with critically-ill parents and no other family support, and children from other vulnerable backgrounds, including single-parent households, kids from areas where exploitation and victimization, especially of girls, is common, and kids from highly impoverished rural and tribal areas where starvation and malnutrition are rampant, and where daily income per family is less than 1$. All these children — though from diverse backgrounds — have the common characteristic that their destinies can be changed with access to clean and safe living and through education. If these children are nurtured in a residential setting where their basic needs are met, they can focus on the new future possible to them with structured learning leading to university-level education.

Parivaar helps children achieve the goals they set for themselves. We support them in choosing a career for which they have interest and aptitude, and help them pursue a degree to make that career a reality. Some of our earliest residents have now moved into careers in engineering, nursing, and accountancy, just to name a few.

Parivaar receives approximately 2000 cases of vulnerable children a year by field organizations, relatives of the child in question, or through concerned non-family members. After filtering Prima Facie information, cases for site visits and detailed investigations are short-listed. Parivaar has a special team that conducts site inquiries from where the case-request has come. This team visits the child’s location and collects a detailed profile, facts and information on him based on the interaction with his referring persons/entity and other possible sources. This site report is then discussed and deliberated, and the severity of the need of the child to be admitted to Parivaar is assessed and a decision is made.

The important parameters looked into while admitting into Parivaar are:

1. Parivaar accepts kids between 4 and 10 years of age, though certain exceptions are made.
2. The child should want and be able to stay at Parivaar through university enrollment. Just as in any family, we believe children should be supported by their family — in this case Parivaar — until they are self-sufficient.
3. Generally, along with one child all his/her siblings are also admitted into Parivaar. We believe it does not make sense to develop a bright future for one and leave others to languish behind. Parivaar’s principle is that all siblings should progress together so that their familial bonding remains intact into the future.
Parivaar Residential Institution Bengal: Institutional Units

Parivaar Vivekananda Sevashram

This is the boys' residential campus of Parivaar, home to resident boys and 50 male Sevavratees. It has all facilities like Kitchens, Dining halls, general purpose halls with projectors, prayer halls, computer labs, library, and a huge playground having 2 football fields, a volleyball court, and a cricket field. It is also the venue of Parivaar's 7-Day Athletic Track and Field Week.

Parivaar Sarada Teertha

This is the girls' residential campus of Parivaar, home to girls and about 40 plus female sevavratees. It has all facilities like Kitchens, Dining halls, general purpose halls with projectors, prayer halls, toy rooms, computer labs, library, and a playground.

Parivaar Amar Bharat Vidyapeeth

This is Parivaar's formal school and is a West Bengal Board affiliated High School. Its main building is adjacent to the Parivaar Vivekananda Sevashrama and has a subsidiary unit at Parivaar Sarada Teertha. It has more than 50 teachers on roll.

Parivaar Administrative and Village Welfare Block

This is the unit handling various local area welfare programs. Some administrative functions are also handled from here.
New Buildings at Sarada Teertha

Residential Block:
This new residential block has been completed this year, and was inaugurated in December 2019. It has 3 floors and can comfortably accommodate 400 girls.

Prayer and Meditation Hall:
A new prayer and meditation hall was built this year in the girls campus. This hall can accommodate 1000 persons at one time. It was inaugurated by Revered Swami Balabhadranandaji Maharaj, the Assistant General Secretary of the Ramakrishna Math and Mission.

School Building Unit:
A new school building at girls campus is being constructed, as an extended block of Amar Bharat Vidyapeeth. It will be dedicatedly used for the education of the residential girls.

New Buildings at Boys Campus

Residential Block:
This new residential block will accommodate 400 boys. The construction went on throughout the year and it is now almost complete.

Dining Hall-cum- Residential Block:
The ground floor of this building will be used as a dining hall where around 1000 children can take meals. The first and second floor will be used as residential facility for children. Ground floor has been completed in this year.
Key Operational Ingredients

1. Admission Process & Parameters
   - 2000 cases of such children come to our notice annually.
   - Neediness assessment by filtering Prima facie information, Site visit, detailed investigation.
   - Special Enquiry team visits the child’s existing location and collects detailed profile, facts and information.

2. Bridging (Fast-Learning) and Tutorship Programs
   - Youngest admitted children (aged 4, 5, and 6) are taken into most initial classes.
   - Children who are in the age-group of 8 to 12 and having no exposure to education are trained into ‘Fast-Learning Bridge Course’ and then admitted into a grade suitable for their age.
   - Along with the formal schooling a strong after school tutorship (2 to 4 hours daily) ensures continuous good academic performance.

3. Amar Bharat Vidyapeeth (ABV)
   - Parivaar’s own High Quality Formal School having medium of instruction English as well as Bengali.
   - Currently from Class 1 to Class 10.

After Class 10, children continue to stay at Parivaar and under Parivaar’s care, and attend outside institutions for higher secondary and colleges / university.

4. Handholding through entire Growth Path (Kindergarten to Higher Education / Placement)
   - Each resident child once admitted into Parivaar is under the care and custody of Parivaar till higher education and subsequent job placement and settlement into the future phase of life.
   - For example, children showing aptitude for meritorious professional lines is trained and fully supported (just as parents do for their own children) till completion of that higher education and subsequent placement.
   - Our earliest set of children is in career-paths like nursing, accountancy and many other professional lines etc.
5. Skill Programs

Over last 5 years the senior batches (post-Higher Secondary and University level Under-Graduation) have undergone a number of Skill and Emoloyability Programs. Many of these programs were in collaboration with National Skill Development Corporation affiliate partners. In past our kids have undergone Skill Programs in areas like Aviation, Hospitality, Nursing, IT and BPO, Paramedical, Beauty & Wellness, Electronics & Home Appliances, Computer Hardware & Networking etc. Some went multiple Skill Programs and also multiple job offers. All the candidates after this got jobs, some getting multiple offers. More than 250 boys and girls have been gainfully employed from amongst our earliest batches into organised sector. We have helped them transition into the life of independence and self-reliance and continue to mentor them even after that. The engagement remains strong after that too and institution remains a guardain to them.

6. Feeding & Nutrition

- Daily 4 cooked meals (Breakfast, lunch, Evening snacks, dinner) along with an early morning starter
- Same food partaken by all Scvnteetees as well as children at the same venue
- Cooking done with high standards of hygiene.

7. Health, Diet, Hygiene and Medical System

- Scientifically planned healthy and balanced diet.
- Water-purifiers in each residential block.
- Additional dietary supplements given to children as per their needs.
- 24-hour medical care by a team of 7 medical personnel.
- Parivaar Ambulances to meet any exigencies.
- Separate Medical File for each child to maintain continuous health and medical history.
Non-academic Child Development Activities

A. Sports & Recreation
- Participation of both elders and children in all facets of extra-academic activities.
- Regular competitive matches.
- Systematic practice and coaching.
- Cricket pitch, Football field, Volleyball court, Badminton.
- Parivaar Track & Field Competition organized every year which goes for 7 days.
- Children movies, inspirational and educational films shown on weekends.
- Collection of good movie DVDs in many Indian as well as foreign languages.

B. General Knowledge Development and Reading Habits
- Television News, Documentaries, Newspaper, Periodicals ensures good level of General Knowledge.
- Extensive Library.

C. Educational Excursions to outside places
Excursions are frequent and generally to places which provide not just entertainment but also have educational value. Visits to places like museums, art galleries, exhibitions, libraries, theatre, planetarium etc. are generally taken up.

D. Festival Celebrations
Celebrations like Holi, Diwali, Christmas, Id-ul-Fitar, Saraswati Puja, birthdays of important national figures and freedom fighters are also observed every year along with national festivals like Independence Day and Republic Day. On all these occasions, talks and discourses are conducted in order to put forth the deeper meaning behind these occasions, so that these occasions can also become medium of character-building and that festivals do not get reduced merely to fun and play. Talks on historical and inspiring themes happen frequently for all children as well as elders. Plays and 'song & dance' items are also there.

E. Literary and Cultural Events
- On Parivaar’s Annual calendar there are at least 15 days of Cultural functions.
- Plays, Rabindra Sangeet, Rabindra Nritya, Recitations, Speech-making etc.
Key Milestones

- 11 batches of Grade 10 children pass with 97% doing on their first attempt despite being very late starters in education.

- 9 batches of Grade 12 children pass with 100% doing on their first attempt despite being very late starters in education.

- More than 400 of our earliest children getting employable after skill programs with NSDC affiliates after their graduation higher secondary in respectable firms.

- Some children also working with Parivaar as interns in important roles along with doing their graduation and being developed for frontline leadership in future years.

Field Initiatives in Tribal Areas in Bengal

Parivaar being the hub of training of Seva-vraties, is also the base for many other projects serving the rural areas in 24 Parganas district as well as far-off tribal areas in districts of Midnapore (West), Bankura, Purulia, Birbhum in West Bengal and Singhbhum (East) in Jharkhand. These areas are home to some of the most impoverished tribes of the country. The whole population suffers from malnutrition and generation after generation. People in this belt live a life totally unlit by the lamp of education and in thoroughly sub-human conditions.

Through rigorous field-work Parivaar has developed its field-network over more than 100 such villages in tribal areas, with a contact person from the local community in each of these villages. We have been able to develop this network through Jana-Sabhas (community meetings), engaging with the community, and winning their trust and confidence. The guardians/relatives of the children already admitted into Parivaar from these areas act as field volunteers, and help in expanding the outreach, due-diligence during admissions of more children, and maintaining continuous relationship with these areas.

Two main tribes, Sabar and Birhore, are the main beneficiaries of Parivaar’s tribal service programs.
Village Service Activities

- Education Excellence Program for village students:
  Books, stationery, emergency pecuniary help within 10 kms radius of Parivaar to more than 2000 students every year from BPL families.

- Ambulance Service for village: 24 hours service in adjoining rural areas.

- Annadan Pariseva (Monthly Food stock Scheme) for old and ailing villagers: Above 80 beneficiaries, stipulated rice, dal (lentils), oil etc.

- Sarada Nivedita Nirashrayi Bhojan Seva Prakalpa - Daily Hot Cooked Meal Service for Mentally Retarded and Homeless Vagabonds – mostly women (Daily 40 such persons have lunch at Parivaar).

Parivaar Bengal: Key Personnel

- Pratik Dutta
  Chief Coordinator
  Masters from Calcutta University and in Parivaar since 2013

- Arnab Ghosh
  Chief Academic Anchor
  Amar Bharat Vidyapeeth
  Masters and B.Ed

- Sandhya Nag
  Campus Superintendent
  Parivaar Sarada Teertha
  Graduate and in Parivaar since 2004

- Raju Ram
  Coordinator, Residential Operations
  Graduate and in Parivaar since 2011

- Shivoli Santra
  Academic Co-Anchor
  Masters from Jawaharlal Nehru University

- Gopal Das
  Superintendent
  Parivaar Vivekananda Sevashram
  In Parivaar since 2005
Parivaar MP: Beginning of a new chapter

We started work in the new geography of MP in 2017, 14 years after the beginning of Parivaar in Bengal. Here the plan was to start Day Boarding (Education cum Meal Programs) for children in the age-group of 3 to 14 years in selected pockets of deprivation and malnourishment in tribal areas of several districts. These centers, each having between 70 to 150 children, are being named ‘Sri Ramakrishna Vivekananda Seva Kutir’. 621 such centers are already in operation in 14 districts as of 31st December 2021. At these Kutirs more than 55,000 children are getting nutritious meals (breakfast and dinner) along with strong Supplementary education and Life-Skills over morning and evening shifts around 6 hours of engagement daily (except Sundays), all round the year. We are endeavoring to set up 1000 such Seva Kutirs by March 2023.

The Problem

In January 2018, The Economist had a cover article on India titled “India’s missing middle class” which had a chilling statistic- Poor diets mean that 38% of children under the age of five are so underfed as to damage their physical and mental capacity irreversibly, according to the Global Nutrition Report. The comparable number for Sub-Saharan Africa is apparently lower at 35%. India has the largest number of stunted children in the world, at 48.2 million. In the state of Madhya Pradesh more than 60% children are malnourished. In some impoverished tribal areas of Madhya Pradesh it is as high as 90%.

While the enrolment rate in government schools across the country in the age-group of 3 to 14 years has increased to more than 97%, the learning outcomes in the specially deprived tribal pockets which are marked by first-generation learners have remained dismal as shown by many reports like the ASER. While the ‘No Detention Clause’ in the ‘Right to Education Act’ coupled with the Mid-Day-Meal Program in Government Schools has ensured that children continue to be enrolled in the schooling system till age of 14 (Grade 8), there is no effective continuous measurement of learning outcomes. Moreover with government schools running for not more than 200 days, there is need for alternate supplementing spaces for ensuring better learning, socialization, development of world-view, and civic virtues coupled with value education to the children as they grow up.

The reason for selecting Madhya Pradesh and these tribal pockets is that here the problems of malnourishment and poor education levels among tribal children are very acute. This is well established by various Government reports
and also studies conducted by other reputed organizations such as Pratham’s ASER (Annual Status of Education Report).

The Government of India’s Comprehensive National Nutrition Survey (CNNS) 2018 and National Family Health Survey-4 show severe health indicators in Madhya Pradesh and our Seva Kutir Districts. These are mentioned below:

- Madhya Pradesh has the highest Infant Mortality Rate of 47 per 1000 live births, in India. Overall India IMR is 33.
- Madhya Pradesh has the highest % of anaemic kids (0-5 years). 54% children are anaemic against National Average of 41%.
- Anaemia in MP is highest among tribals, chief reason being poor diet.
- In MP, % of thin adolescents (10-19 years) is 32 %, against National average of 24 %. This is indicated by low BMI & shows undernutrition.
- In Stunting (low height-for-age) MP is 3rd worst in India.
- In Wasting (low-weight-for-height) MP is 4th worst in India

Educationally, the ASER report states that only 41.6 % of Class V students in rural MP can read a Class II level text. Similarly, only 64.4 % of Class VIII children can read a simple Grade II level text. Even in the state on MP the areas that Parivaar has chosen to work are the worst areas as far as nutritional, health and educational parameters are concerned.

The Seva Kutirs combines two key themes most crucial for children in interior rural areas in the country - malnutrition and education.
Seva Kutirs: Salient Design Features

1. Village Community Provided Venue: The village community has to invite us and offer a venue free. Usually it is somebody's house, Panchayat building, community hall, school in its non-functioning hours, or even a shed / godown. Thus we do not incur any infrastructure costs for this.

2. Morning (Breakfast) and Evening (Dinner) Shifts: All Kutirs follow a 2-shift engagement with the children (from 7A.M. to 10:30A.M. and from 4:00P.M. to 7:30P.M.). In the morning shift breakfast, with seasonal fruits and milk are given, and dinner (roti, sabzi, rice and dal) is served in the evening shift. During day-time the children are sent to the local Government school so that a continued engagement is established with them. The Seva-Kutirs are aimed at complementing the government schooling and not act as a substitute. But it has much more emphasis and inputs both nutritionally as well educationally.

3. Local Human Resources: To the extent possible we engage all local workforce (cooks, helpers are from the same village) and teachers from the same or nearby area.

4. The Kutirs in the same area are organised under one cluster, with cluster-level resource persons.

5. Central Resource Team:
   i. Education: Resource persons experienced in pedagogy, teacher training, and curriculum design ensure planning and uniform implementation across Kutirs. They also perform a continuous Impact Assessment of Kutirs to encourage constant improvement of the programs. Sports, Value Education, and Civic Virtues are also components of the Kutirs.
   ii. Nutrition and Health: Central Resource persons specialising in nutrition supervise the delivery of our meals and supplementary dietary inputs to children with severe malnourishment. They also work in sync with Nutrition Resource Centres in government hospitals. They do a continuous assessment of various indicators of health and nutrition for children across the Kutirs.

6. Community ‘buy-in’ in the program:
The program is designed carefully to involve people not just as beneficiaries but as stakeholders. Institutions like Panchayats and non-Government bodies like self-help groups, women-led federations which have seen a growth in tribal areas are being reached out to and will be involved in the processes of the program like:

   • Mobilizing children in villages for the Seva Kutir
   • Volunteering for the Seva Kutir
   • Regular sharing of data on the children of their villages on health and education
   • Mobilizing action to achieve success in convergence with government programs.

7. Stress on Local Supply:
To the extent possible, we are procuring vegetables, milk etc from local suppliers. We are encouraging the poor village communities to produce whatever is necessary for the Seva Kutir locally. Towards this we will, with help of external agencies, also help and facilitate the local communities to organise themselves into producer groups / organizations.

8. Social Integration:
We witnessed a completely new situation here with villagers objecting to children from lowest castes sitting with those from upper castes while partaking of the meals. We made it clear that it will be like this only. We now feel, more strongly than before, that even a simple act of dining together right from childhood can go a long way in building a more integrated society.
Synopsis of Scenario in Districts under Operation

Sheopur District

We opened the first Seva Kutir in Sheopur district in Karhal block in July 2019.* As of December 2021, we have 131 Seva Kutirs here serving more than 14,000 tribal children.* Out of more than 300 blocks in MP, Karhal block is the worst in terms of malnourishment, other health parameters, education and overall development.

All these villages are inhabited by Sehriyas tribal, which are categorized as a PVTG (Particularly Vulnerable Tribal Group). The Sehriyas are among the most deprived and poor communities in the whole country. They severely lack in terms of health, education and income parameters. In terms of health, the chief reason for their bad condition is incapability to eat adequate and nutritious food.

As per the Government’s National Family Health Survey- 4 and Comprehensive National Nutrition Survey, following are the key health statistics for Sheopur district:

- Sheopur district has the highest stunting rate (low height –to-age ratio, showing chronic undernutrition) for it has the highest underweight rate for women in Madhya Pradesh.
- It has the highest percent of anaemic population in Madhya Pradesh. More than 90% of females are anaemic.
- It is one of the worst in MP in terms of women with more than 10 years of education, which, as per experts, is a key factor influencing children’s health.
- Taking into account health, educational and other developmental parameters, it has the lowest ranking among 53 districts of MP as per the government surveys, and on an India level survey of around 600 districts, it is among the worst 5 districts.

The Sehriyas are engaged in farm or sometimes non-farm labour work. They were traditionally entirely dependent on forests and also lived quite close to the forests. But for the past several decades, with forests getting depleted, their dependence on forest has hugely reduced.

In a Sehariya household in these villages, there is no concept of breakfast. If anyone – be it a child or an adult - is hungry, then they would eat previous night’s stale rotis with black tea (as milk is not available) or just the rotis itself. Milk and hence milk products like curd, ghee etc are totally unavailable in the Sehariya households. They do not have the capacity to rear cattle because there are no pastoral lands. Grazing is legally prohibited in these areas due to forest laws, though some people stealthily take the cattle into forests in dark hours.

They have meals two times a day, in the afternoon and at night. This meal consists of rotis (of wheat or bajra). Apart from rotis, pulses and vegetables are not available all the time. One thing to note is that meals would consist of only roti with pulses (only rarely with vegetables). Often when even these are not available, they use chutney of chillies or they eat the rotis with onions. As a proxy for proper vegetables, they depend on the forest shrubs and use certain naturally growing plants as vegetables which are generally not used by other communities, such as pamar, sag, sareta, baasi. Even these are available only in the months of the rainy season.

In other seasons, around 60-70 per cent families have no ability to buy vegetables from the local market which is also weekly in nature (the village haat). They would have vegetables in their meals once in a week. Only some of the families get to eat it 2-3 times in a week. So, their staple diet is rotis and pulses. Rice is taken quite infrequently in Sehriya communities. They get wheat at subsidized rates from the government (around 30-35 Kgs for a family) and also some amount of rice, sugar and salt. In their own farms, they would grow bajra or in some cases wheat. Thus, the children severely lack in terms of protein, vitamins and minerals which is indicated in the health parameters.
The Sehariyas marry at an early age. It is not uncommon to find girls and boys married at the age of 14 or 15. We met many such girls and boys. In a large number of villages there is no single graduate ever, and very less number of Higher Secondary pass-outs.

After the opening of Seva Kutirs in these villages, we emphasize in community meetings on not getting children married at such ages, and the whole village should pledge for that. We also ask the villagers to have a goal that all boys and girls should study till Higher Secondary at least, that will open possibilities of government jobs due to benefits of reservation. Children of even 5 years get addicted to tobacco. Due to our intervention, we are also getting the addicted children leave this dreadfull habit.

Sheopur being a district close to many parts of Rajasthan, the young people between 20 and 40 form a big chunk of migrant labour to those areas of Rajasthan. Sehariyas migrate to towns like Sawai Madhopur, Bundi, Kota, or even Jaipur as migrant labour. There are many months when there is no income at all for those who do not migrate (who are typically in the bracket of 45 plus).

**Chhindwara District**

"We are running Seva Kutirs in Tamia, Htarai and Parasia blocks of Chhindwara district, where also we are serving some of the most deprived tribal communities like Bharia and Gond. We have in fact Seva Kutirs in the Patalkot area as well, which is known for its inaccessibility and extreme poverty. We started the first Seva Kutir here in August 2019 and as of November 2021, have 50 Seva Kutirs serving more than 9,000 children. Here also, we have selected tribal villages where problems of malnourishment and poor learning outcomes are rampant, and most deprived tribal populations live. Bharia tribe, which is one of the main tribes in all these Seva Kutir villages, is a PVTG (Particularly Vulnerable Tribal Group). That means within tribals, these are one of the most deprived and vulnerable.

Though Chhindwara town in itself is quite modern, yet the interior tribal villages suffer from a hilly terrain denying easy access to various modern amenities, chronic malnourishment of children, poor education outcomes and very low income.

**Mandla District**

Mandla is home to a large tribal population. Large parts of the district are covered with forests, and villages are relatively smaller. People are engaged mostly in farm work, and seasonal migration to nearby towns such as Jabalpur and Nagour is also quite common.

We have 30 Seva Kutirs in this district. All these Seva Kutirs are in Mohgaon block. Main tribes in these villages are Gond & Baiga, the latter being a PVTG.

**Sehore District**

Sehore district, though neighbouring the state capital Bhopal has many interior tribal villages, which have the same conditions of backwardness and problems of malnourishment and poor learning outcomes, which exist in other tribal areas in Madhya Pradesh. We have 41 Seva Kutirs in 4 tehsils of this district – Ichhawar, Rehti, Nasrullaganj and Sehore.

The main tribes inhabiting these villages are Bhil, Bhilala, Gond and Korku.
Dewas District

Dewas town is an industrial town, and is near to Indore. However, the district has some pockets of interior tribal villages quite far from the town and often in jungles, which fare very poorly on nutritional and educational indices.

We started our first Seva Kutir in this district in April 2017, though we really started expanding the number of Seva Kutirs here from March 2018. We have 45 Seva Kutirs in this district.

Vidisha District

We started our first Seva Kutir in October 2020. We have 7 Seva Kutirs in this district in Lateri and Sironj tehsils.

Dindori

We started our first Seva Kutir in March 2021. We have 60 Seva Kutirs in this district in Bajag tehsil. This is one of the poorest areas in Madhya Pradesh, and is inhabited by Baiga tribes who are classified as a Particularly Vulnerable Tribal Group (PVTG).

Anuppur

We started our first Seva Kutir in July 2021. We have 38 Seva Kutirs in this district in Pushprajgarh tehsil. This is a hilly and sparsely populated area. Amarkantak, from where the Narmada river has originated, is in this tehsil.

Betul

We started our first Seva Kutir in August 2021. We have rapidly expanded here and have 68 Seva Kutirs in this district.

Sidhi

We started our first Seva Kutir in this district in October 2021, in Kusmi block. We have 13 Seva Kutirs in this district.

Ratlam

We started our first Seva Kutir in this district in October 2021. We have 11 Seva Kutirs in this district.
Harada

We started our first Seva Kutir in this district in November 2021, in Makdai area of Sirali tehsil. We have 10 Seva Kutirs in this district.

Shivpuri

We started our first Seva Kutir in this district in December 2021. We have 12 Seva Kutirs in this district.
1. Village Navada, District Dewas

This Seva Kutir has been started on 9th April '17 on banks of Narmada and has about 50 children attending from deprived communities.

2. Village Eklera, District Dewas

This Seva Kutir has been started on 3rd September '17 and has 100 children attending from Gond, Korku, and Bhil tribal communities.

3. Village Devpura, District Sehore

This Seva Kutir has been started on 8th February '18 and has about 105 children attending from Korku tribal community.

4. Village Chhipaner, District Sehore

This Seva Kutir, on banks of Narmada, has been started on 9th February '18 and has about 75 children attending from deprived communities.
5. **Village Silphodkheda, District Dewas**

This Seva Kutir has been started on 1st March '18 and has about 70 children from Gond tribal community attending it.

6. **Village Dunalava, District Sehore**

This Seva Kutir has been started from 3rd March '18. The village is cut off from the surrounding area as a river has to be crossed to reach it. There is no road and one has to walk on foot for 4 kilometers from the nearest motorable road. About 105 children from Korku tribal community are attending this Kutir.

7. **Village Bijabhairu, District Sehore**

This Seva Kutir has been started from 8th March '18. This village has neither electricity nor any road. About 80 children from Bhilala tribal community attend this Kutir.

8. **Village Bedgaon, District Dewas**

This Seva Kutir has been started on 24th March '18 and has 100 children from Bhilala, Korku tribes, and other deprived communities attending it.
9  Village Jamli, District Sehore

This Seva Kutir has been started on 1st April '18 and has 110 children from Gond and Korku tribal community attending it.

10  Village Surani, District Dewas

This Seva Kutir has been started on 11th April '18 and has about 70 children attending from Korku and Gond tribes and deprived Scheduled Caste communities.

11  Village Bodassil, District Mandla

This Seva Kutir is our first Kutir in Mandla district and has been started on 13th April '18. It has about 80 children attending from Gond and Baiga tribes.

12  Village Moyapani, District Sehore

This Seva Kutir has been started on 16th April '18 and has about 80 children attending from Korku and Gond tribes and deprived Scheduled Caste communities.
13 Village Umar, District Dewas

This Seva Kutir has been started on 16th April ’18 and has about 100 children attending from Korku and Gond tribes and deprived Scheduled Caste communities.

14 Village Machwas, District Dewas

This Seva Kutir has been started on 17th April ’18 and has about 80 children attending from Korku, Gond, and Bhil tribes and deprived Scheduled Caste communities.

15 Village Pura, District Dewas

This Seva Kutir has been started on 25th April ’18 and has about 70 children attending from Korku tribes and deprived Scheduled Caste communities.

16 Village Barwai, District Dewas

This Seva Kutir has been started on 30th April ’18 and has about 70 children attending from Korku, Gond, and deprived Scheduled Caste communities.
17

Village Dhaikheda, District Sehore

This Seva Kutir has been started on 1st May ’18 and has about 80 children attending from Bhil tribes and deprived Scheduled Caste communities.

18

Village Sulgaon, District Dewas

This Seva Kutir has been started on 2nd May ’18 and has about 100 children attending from Korku and Gond, and deprived Scheduled Caste communities.

19

Village Kaliratdi, District Dewas

This Seva Kutir has been started on 9th May ’18 and has about 105 children attending from Bhil and Korku tribal community.
20

Village Poshtipura, District Dewas

This Seva Kutir has been started on 10th May '18 and has about 90 children attending from Korku and Bhilala tribal community.

21

Village Nivardi, District Dewas

This Seva Kutir has been started on 10th May '18 and has about 70 children attending from Gond tribal community.

22

Village Veerpura, District Sehore

This Seva Kutir has been started on 14th May '18 and has about 80 children attending from Gond, Korku, and Bhil tribal communities.

23

Village Panigaon, District Sehore

This Seva Kutir has been started on 14th May '18 and has about 90 children attending from Bhil tribal community.
**Village Umardih, District Mandla**

This Seva Kutir has been started on 16th May '18 and has about 87 children attending from Gond tribe and other deprived communities.

**Village Patadei, District Mandla**

This Seva Kutir has been started on 16th May '18 and has about 100 children attending from Gond tribal community.

**Village Machla, District Mandla**

This Seva Kutir has been started on 16th May '18 and has about 100 children attending from Gond tribal community.

**Village Kumharra, District Mandla**

This Seva Kutir has been started on 16th May '18 and has about 90 children attending from Gond tribe and other deprived communities.
28

Village Chubaval, District Mandla

This Seva Kutir has been started on 16th May '18 and has about 100 children attending from Gond tribe and other deprived communities.

29

Village Ratatalai, District Dewas

This Seva Kutir has been started on 19th May '18 and has about 80 children attending from Bhilala tribe and other deprived communities.

30

Village Bhayali, District Dewas

This Seva Kutir has been started on 21st May '18 and has about 100 children attending from Bhilala and Gond tribes and other deprived communities.

31

Village Pipardarra, District Mandla

This Seva Kutir has been started on 24th May '18 and has about 90 children attending from Gond tribal community.
Village Pipariya, District Mandla

This Seva Kutir has been started on 28th May '18 and has about 110 children attending from Gond tribe and other deprived communities.

Village Mungwani, District Mandla

This Seva Kutir has been started on 28th May '18 and has about 110 children attending from Gond tribe and other deprived communities.

Village Singodi Pathar, District Dewas

This Seva Kutir has been started on 29th May '18 and has about 80 children attending from Gond and Bhilala tribal communities.

Village Mansingpura, District Dewas

This Seva Kutir has been started on 30th May '18 and has about 100 children attending from Barela Bhil tribal community.
Village Bharla Pathar, District Sehore
This Seva Kutir has been started on 31st May '18 and has about 50 children attending from Barela Bhil tribal community.

Village Alipur, District Sehore
This Seva Kutir has been started on 31st May '18 and has about 70 children attending from Bhil tribal community.

Village Patrani, District Dewas
This Seva Kutir has been started on 11th June '18 and has about 80 children attending from Gond tribe and other deprived communities.

Village Mandaleshwar, District Dewas
This Seva Kutir has been started on 20th June '18 and has about 80 children attending from deprived community of Kevats.
40. Village Keotiyapani, District Dewas
This Seva Kutir has been started on 5th July '18 and has about 90 children attending from Bhil and Bhilala tribal communities.

41. Village Khisi, District Mandla
This Seva Kutir has been started on 5th July '18 and has about 101 children attending from Gond tribe and other deprived communities.

42. Village Surmanya, District Dewas
This Seva Kutir has been started on 6th July '18 and has about 100 children attending from Korku tribe and other deprived communities.

43. Village Kolukhedi, District Sehore
This Seva Kutir has been started on 6th July '18 and has about 80 children attending from Bhil tribal community.
44  Village Nadan, District Sehore

This Seva Kutir has been started on 7th July '18 and has about 90 children attending from Bhil, Korku, and Gond tribal communities.

45  Village Kholchipura, District Dewas

This Seva Kutir has been started on 26th July '18 and has about 105 children attending from Bhil, Bhilala, and Korku tribal communities.

46  Village Nimlay, District Dewas

This Seva Kutir has been started on 23rd Aug '18 and has about 105 children attending from Gond, Bhilala, and Korku tribes and other deprived communities.

47  Village Agra Khurd, District Dewas

This Seva Kutir has been started on 28th Aug '18 and has about 105 children attending from Bhilala tribe and other deprived communities.
Village Pankua, District Dewas

This Seva Kutir has been started on 28th Aug '18 and has about 105 children attending from Bhilala tribe and other deprived communities.

Village SohanKheda, District Sehore

This Seva Kutir has been started on 31st Aug '18 and has about 90 children attending from Bhil, Korku, and Gond tribal communities.

Village Jaamun Chhapri, District Sehore

This Seva Kutir has been started on 4th September '18 and has about 110 children attending from Korku and Barel Bhil tribes and other deprived communities.

This Seva Kutir has been started on 30th December’21 and has about 90 children attending from Sahariya tribe and other deprived communities.

Village Jhalmada, District Shivpuri

This Seva Kutir has been started on 30th December’21 and has about 80 children attending from Sahariya tribe and other deprived communities.
616

Village Devipada, District Ratlam

This Seva Kutir has been started on 30th December'21 and has about 65 children attending from Bhil tribal community.

617

Village Semliya, District Ratlam

This Seva Kutir has been started on 30th December'21 and has about 70 children attending from Bhil tribal community.

618

Village Sandala, District Ratlam

This Seva Kutir has been started on 30th December'21 and has about 75 children attending from Bhil tribal community.

619

Village Jharniya, District Ratlam

This Seva Kutir has been started on 30th December'21 and has about 75 children attending from Bhil tribal community.
Village Lukhipada, District Ratlam

This Seva Kutir has been started on 30th December'21 and has about 75 children attending from Bhil tribal community.

Village Tala, District Sidhi

This Seva Kutir has been started on 31st December'21 and has about 60 children attending from Baiga and Agariya tribes, and other deprived communities.
Supporting Seva Kutirs

Average yearly costs per child in a Seva Kutir is around Rs 10,000. For a 100 children Seva Kutir the costs would be around Rs 10 lakhs.

Pratham Books Mini Libraries

We now have mini-libraries of Pratham Books in all our Seva Kutirs. These are portable, foldable, wall-mounted collections (100 books in each) carefully curated by us with Pratham Books. These are all story books of different kinds. Pratham Books is an initiative started by Mrs. Rohini Nilekani.
Seva Kutir Platform Initiatives

In the year 2021, Parivaar has started some crucial new services in remote and poor tribal areas of Madhya Pradesh, utilizing the Seva Kutir Platform which provides a close connect with the village community, a strong and committed grassroots team to carry out the activities, and local government support.

Some of these activities are mentioned below:

**1. 24*7 Ambulance Services**

Starting from 12th June 2021, we have deployed 89 Ambulances across 19 districts in Madhya Pradesh. These are serving (24*7) tribal pockets of these districts, which are highly underserved areas. The government is highly appreciative of this valuable service which is lacking in these areas. There are only a few government ambulances covering a tehsil/block, which spans more than 1000 sq.km. Because of this, people face huge difficulties in accessing hospitals when they get sick and need treatment.

There are 89 designated tribal Blocks in MP and some other areas having significant tribal population. Our target is to start around 200 Ambulances in these areas in the next 1 year. The number of ambulances that we have decided to run in various districts depends on present govt. ambulance services in these areas, accessibility problems and our field and manpower strength across the villages.

District-wise list of Ambulances already deployed is given below:

The ambulances are used in two ways:

(i) On-call service: whenever we receive information from patients’ families for any urgent need, such as cases of accident, deliveries or serious illness, then the ambulance takes the patient to the hospital. The ambulance reaches their place which is interior villages and then takes them to the hospital. The hospitals are government hospitals at the Block level or District Headquarters, or even the nearest big city if the case requires that. We also get direct calls from the Government Hospitals in these areas (PHCs, CHCs) and then send our ambulance as required by them.

(ii) Cases referred to by our Mobile Clinic: We run mobile clinics also, where we take doctors to the interior villages for health check up and treatment. They refer serious patients to the District Hospital or the nearest big city hospital. We also get information about referrals from Block level hospitals. The ambulance takes all these patients to the referred hospital (which is usually the District Headquarters for treatment).

On a daily basis, the ambulance runs in the range of 150-250 kms, depending on the need. It serves 4-5 patients daily. Each ambulance has 2 attenders (one for the day shift & the other for the night shift) and 2 drivers. All calls in one district are made to a dedicated phone number and then the concerned person allots the case to an ambulance depending on the location and that ambulance handles the case.

2. Mobile Health Clinics

Our experience of working in remote and poor tribal villages in Madhya Pradesh has highlighted the dismal conditions of people suffering with various diseases or disabilities. Due to poverty, lack of access to good hospitals and doctors, they suffer from the sickness without getting the desired treatment. Therefore, we have started full day mobile clinic service in the villages.

We employ a qualified doctor who visits 4-5 villages daily and examines around 100-150 patients. Free medicines are also provided to the patients. Those patients who are referred to Block or District Level Hospitals, because of serious illness, are also taken to these hospitals for treatment by Parivaar.

We expect to serve between 2 to 3 lakhs cases in a year across the several districts.

3. **Vision Restoration Programme (Shravan Kumar Prakalpa)**

In the poor, rural areas in Madhya Pradesh, where we work, the problem of cataract and other eye ailments is very common, especially for the elderly. And due to poverty and difficulties in accessing good hospitals, most of them remain untreated, and gradually lose eyesight. It's a tragedy that despite being a simply curable illness, cataract causes loss of eyesight for millions of persons in India.

To address this problem, we have collaborated with two highly reputed eye hospitals (of the same Trust) in Madhya Pradesh for this project, which is aimed at restoring the vision of poor villagers, especially the elderly. The eye hospitals are Shri Sadguru Seva Sangh Trust Eye Hospital, Anandpur, District Vidisha and Sri Sadguru Seva Sangh Trust Eye Hospital, Chitrakoot. We organize eye camps in villages, where on an average 250-300 patients come for examination. They are examined, given medications and glasses, and those needing surgeries are then taken by us in buses to the hospitals where they stay for 3-4 days and are operated.

The details of the work done in between 16th of June, 2021 to 15th of January, 2022 is given below:

<table>

4. **Mother-Infant Care (Prenatal to First 1000 days) Programme**

Starting from 15th August, 2021 we have launched this Programme on a pilot basis in 30 Seva Kutir villages in Karahal area of Sheopur. Under this we are providing 2 meals (morning and evening); milk, medicines (iron and folic acid tablets/syrup & multivitamin tablets) to:

(i) all pregnant women in the village
(ii) all lactating mothers (who have children in 0-12 months range) in the village
(iii) all children in 6 months - 3 years (children above this age group are already part of Seva Kutirs)

In addition to this, we are also providing all support to access hospitals for check-ups, deliveries etc.
**Winter Relief for Uncared Elderly in Seva Kutir Villages**

Every year, we distribute blankets to vulnerable elderly persons so that they can protect themselves from the cold. This winter, in October-November 2021, we distributed around 50,000 blankets to elderly across more than 1000 villages in 14 districts of Madhya Pradesh. People were identified meticulously after extensive surveys in these villages. Quality blankets were procured and ferried to these villages, many of which did not have any roads.

**COVID Relief Efforts**

In addition to the regular work that we do, we also carried out major relief works during COVID pandemic, especially during the 1st and 2nd waves.

In the 2nd wave during summer of 2021, we carried out various relief activities in all our service areas, especially in Madhya Pradesh. The second wave of COVID had badly affected all parts of India, including the rural areas. The areas where Parivaar operates Seva Kutirs are extremely poor and remote tribal villages, where villagers face lack of knowledge, awareness, and economic resources to access medical and other facilities in a timely manner. Therefore, we tried to ensure that medical and other help reaches them in this crisis situation. We took the following measures:

1. **Medical Teleconsultation & Distribution of Medicines to Sick Persons.**
2. **Working in Close Collaboration with Local Government Authorities.**
3. **Distribution of Medical Equipments to Government Hospitals.**
Parivaar
MP Key Functionaries

For our Madhya Pradesh work the Key Functionaries are as follows

Kapil Bharadwaj
Overall Chief
B.E. (Computer Science)

Aakash Jaiswal
State Coordinator
B.Arch. from National Institute of Technology, Bhopal

Shekhar Patidar
State Coordinator
B.E. and Former Software Professional
Future Plans in MP

By March 2023, Parivaar plans to:

- Set up 1000 Seva Kurfirs in tribal villages, serving more than 1,000,000 children with 2 meals daily and quality education.
- Operate 200 Ambulances (24*7 service) in Tribal Blocks of MP
- Operate Mobile Health Clinics in all our service areas.
- Vision Restoration Programme in all over Madhya Pradesh in tribal and other poor rural areas.
Residential Facilities in Madhya Pradesh

(i) **Residential Campus at Village Sandalpur, Dewas district**

The residential educational institution has started from December 2021. 325 children from Seva Kutir villages of Dewas, Sehore and Khandwa districts have been admitted in Grades VI & VII.

(ii) **Residential Campus at Village Amla Novabad, Sehore District**

A smaller residential campus in Sehore district is getting ready and will be start from the Academic session 2022-23. This will be for only tribal girls from Sehore district.

(iii) **Hostel Facilities in Mandla town**

We have been running hostel for more than 100 students (both boys and girls) for the last 2 years. These students stay in Parivaar hostels and study in the nearby government schools.
Supporters

We have received continued support from a large number of individuals, charitable foundations, corporations ever since our inception in 2003.

We would like to thank our Institutional Supporters
